FreshCart Festive Season Addendum

Addendum to the Customer Refund Policy v3.0 and the Support SLA Matrix. Applies from 28 October 2024 to 10 November 2024 (Diwali period).

1. Why this addendum exists

Order volume during the Diwali period is about three times a normal week. This addendum changes three rules for that period only. Outside these dates the policy and the matrix apply unchanged.

2. Small refunds are approved automatically

A refund claim of INR 500 or less for a spilled, missing or wrong item is approved automatically, without an agent, and credited within 2 hours. Claims above INR 500 follow the normal review.

3. A fourth claim in thirty days

The limit of three claims in a rolling thirty day period still applies. During the festive period a fourth claim is not declined automatically: it goes to a support supervisor, who must decide within 24 hours.

4. Escalation time

During the festive period, a case that the SLA matrix marks for supervisor escalation must reach a supervisor within 10 minutes, not 15.

5. Owner

Owner: Head of Customer Support. Questions: support-policy@freshcart.example.
