

FreshCart Restaurant Partner Agreement (extract)

Schedule 4 — Cost allocation for customer refunds

4.1 Allocation principle

Where a refund is issued to a customer, the cost of that refund is borne by the party responsible for the underlying failure, determined as set out in this Schedule.

4.2 Partner-borne events

The Partner bears the full cost of the refund where the failure arises from food preparation, incorrect items despatched, missing items at the point of handover, or packaging inadequate for transport of liquid contents.

Packaging adequacy is assessed against the FreshCart Packaging Standard current at the time of the order. Repeated packaging failures may trigger review under clause 9.

4.3 Platform-borne events

FreshCart bears the full cost of the refund where the failure arises from delivery partner handling, delivery delay beyond the committed window, or application error.

4.4 Shared events

Where responsibility cannot be determined from available evidence within the review period, the cost is shared equally between the parties.

4.5 Disputes

The Partner may dispute an allocation within fifteen days of the monthly statement. Disputes are resolved under clause 12.
