

FreshCart Support Escalation SOP

Document SOP-SUP-014 · Revision 5 · March 2024

1. When to escalate to a supervisor

A support agent must escalate to a supervisor where the customer has exceeded the claim frequency limit set out in the Customer Refund Policy, where the order value exceeds INR 5,000, or where the customer has raised a complaint about a previous refund decision.

2. Evidence required before escalation

The agent must attach the order identifier, the delivery timestamp, any photographic evidence submitted by the customer, and the customer's claim history for the preceding thirty days.

3. Supervisor response time

Supervisors must respond to an escalated case within four working hours. Cases unresolved after eight working hours are routed automatically to the regional support manager.
